Licking County Health Department

*Preventing Disease,
Protecting the Environment and
Promoting Healthy Lifestyles.*

Need transportation? According to the Centers for Disease Control (CDC), community transportation availability can either help or block people from healthy lifestyle choices like making regular doctor visits, accessing good jobs, and having access to healthy food. This is especially true for underserved residents, children, older adults, and households without automobiles.

The **Licking County Health Department** offers this transportation guide to assist Licking County residents in choosing the best transportation option to help lead a healthy lifestyle.
